

ONLINE PERMITS!

Starting May 1, 2014 contractors and property owners can apply for the following permits online:

- ✚ Residential AC
- ✚ Residential electrical panel
- ✚ Residential furnace
- ✚ Residential re-roof
- ✚ Residential water heater

To register to become an online permit user please fill out and submit the *Application for an Account for Electronic Permit Issuance* via regular mail, fax or email. The fax number to send the application to is 707-794-9242, and the email address is sespino@rpcity.org.

Once your application has been received a login and password will be issued to the licensed contractor or property owner (collectively the “Applicant”). The login and password shall only be used by the “Applicant.” Upon initial use of the password you will be prompted to change it for security purposes and then you’ll be able to start utilizing the online-permitting system.

If you are a property owner please read the Online Owner-Guide, and use as a reference to help you apply for permits online.

If you have any questions please contact the City of Rohnert Park, Development Services, Building Division at 707-588-2240.
